Mr. [redacted] 50X1

Dear Jim:

As discussed with you last Friday, we have inventoried all of the GE "C" spares which we have on hand after the completion of the program. We have listed below all of the items which can no longer be used due to the change from the Mark IIA to the Mark IV configuration.

We would like your permission to transfer these to the [redacted] 50X1
program as they are still usable for the [redacted] This will not result 50X1
in a saving for the [redacted] but it is a saving for the Government.
